BOARDING AGREEMENT

The Australian Rat Fanciers Society Inc. (AusRFS) offers a boarding service to look after pet rats when their owners go away on holidays etc. The rats are placed in the homes of AusRFS members who are experienced in keeping rats. The Boarding Service is dependant AusRFS Boarding Team members being available to take the boarders into their homes. The more notice given, the better chance there is of a carer being arranged. All bookings and queries should to be directed to the AusRFS Boarding Co-ordinator Nichola Judd, via the AusRFS email address above, if urgent, phone Nichola on 0450 262 080

The full boarding fee goes to the carer, the AusRFS does not make any money from the Boarding Service. The fee is per cage (recommended maximum 5 rats per cage) and is payable in cash, at time of drop off. AusRFS Members: \$25.00 per week (or part thereof), Non-Members: \$35.00 per week (or part thereof).

The following are the terms and conditions under which the Boarding Service operates. On signing the Boarding Agreement, the rat's owner agrees to all of these points.

- Food & Supplies: The Owner must provide all food, supplies and accessories that the rat/s will require during their stay. Such things as water bottles, food dishes, bedding and toys. If the owner does not bring enough food etc then the owner must reimburse the carer for any expenses incurred.
- Cages: Owners can either bring their own (escape proof) cage, or the AusRFS can usually supply a
 cage. There is no extra charge for the use of the club's cages, but arrangments must be made at the time
 of booking the Boarding.
- 3. **Medications:** The owner must bring any medications the rats may need during their stay. Medications, and must be clearly marked. The owner must provide full written instructions for administering the medication and in so doing, authorises the carer to administer such medicine to the rat/s in accordance with these instructions.
- 4 Parasite Treatment: If a rat is not on a regular parasite treatment regime or been treated for parasites during the previous 2 days, the carer may at their discretion treat the rats with Revolution spot on treatment, as per instructions in The Pet Rat Care Guide. The carer will inform the owner that they will treat the rats and the owner is responsible for the cost of the treatment. Even though only about 1 drop is needed per rat, Revolution loses effectiveness once the vial is open, so can't be kept for future use. Therefore, in most cases the owner will need to reimburse the carer for one vial of Revolution. However, if the carer is opening a vial to treat other rats in their care, then they may charge the owner a reduced amount.
- Veterinary Treatment: If the carer believes that the rat/s need veterinary treatment, the rat/s will be taken to a vet who is experienced in treating rats (as per the AusRFS list of vets). The owner should leave details of their vet, in case the treating vet wishes to discuss the health history or treatment of the rat/s. In the case of serious illness, or if the amount agreed upon has been reached, the carer will make all effort to contact the owner.
- 6 **Carer Availability** Once the AusRFS has agreed to board the rats or the rats are with the carer, if that carer is no longer able to care for the rats, then the AusRFS will arrange for another carer to board the rats, under the same conditions.
- 7 **Extension of Boarding:** If the owner is not able to collect the rats on the agreed date, the owner must contact the carer prior to the agreed date (see note above re carer availability).
- Pick up: If the rat/s are to be picked up by a person other than the owner, then the owner must give written permission for this. If the owner does not pick up the rat/s or make contact with the carer, the carer will make every effort to contact the owner. If after one week of the specified pick up date no contact has been made and the carer has been unable to contact the owner, the rats may be placed with the Australian Rat Fanciers Society Rescue Service and put up for adoption.
- 9 **Reimbursement of Expenses:** The owner must reimburse the carer for all monies owed for food supplies & vet treatment at the time of pick up.

THE Ausrfs Carer This section to be completed by the carer. Name Address Phone Number **Email Address** I agree that I will care for said rat/s in my home to the best of my ability, including seeking veterinary treatment if required.
